Enclosure Accessories - Lighting

WDL026SWLT120

Use where illumination is needed inside an enclosure. WDL series is available with motion sensor or on/off switch. With optional holder kit, WDL series lights can be "hand-held" for spot illumination.

Motion sensor version detects the motion of the enclosure door being opened and automatically turns light on. The sensor is factory pre-set to turn light off five minutes after motion ceases. The motion sensor does not detect movement through glass or fiberglass, thus allowing installation in enclosures with windows or alass doors.

- Uses fluorescent lamps
- Light color/temp is bright white
- Holder and lamp housing manufactured from UL94-V0, impact resistant plastic
- Connection: 4-pole terminal, max. AWG 14 for power supply and parallel wiring of two lights
- Includes mounting screws

Magnet mount, includes part numbers 025400-00, 025401-00, 025410-00 and 025411-00

Screw mount, includes part numbers 025400-01, 025401-01, 025410-01 and 025411-01

Applications

The LED light series is suitable for all types of panels and enclosures, especially where space is at a premium. These lights have a very long service life due to the use of LED technology.

They are available with powerful non-slip rubberized magnets allowing them to be easily positioned in any steel enclosure. Screw mounting is also available as an option. The power output allows up to 10 lights to be connected to each other (daisy chain) with both the input and output plugs snap-locking into place.

Features

- Energy-saving LED technology
- Wide voltage range
- Integrated power unit
- · Magnet or screw mount
- Wide variety of connections
- On/Off switch or motion sensor
- There are no mounting orientation restrictions.
