Achie Ve™ Compact Limit Switches

AEM Series (Metal Plunger with Roller Actuator)

- Die-cast metal housings
- 9.8 ft [3m] cable/5-pin M12 quick-disconnect (bottom and right)
- Compact size with standard 25mm [0.98 in] hole spacing
- Wide offering of head actuators

- Epoxy resin-filled for IP67 rating
- Snap-action (Z11) and (Z22), slow-make/slow-break (X11), contacts
- N.C. contacts are positive-opening operated unless otherwise noted

Achie Ve™ Compact Limit Switches Supplemental

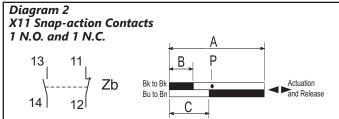

Limit Switch Types

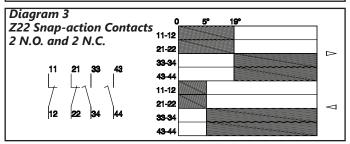

Snap-action contact: A contact element in which the contact motion is independent of the speed of the actuator. This feature ensures reliable electrical performance even in applications involving very slow moving actuators.

Slow-make/slow-break contacts: A contact element in which the contact motion is dependent on the actuator speed.

Contact Displacement Values and Bar Charts

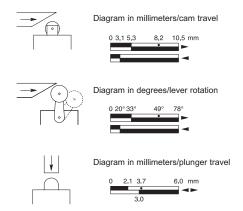

- A = Max. travel of the operator in mm or degrees
- B = Tripping travel of the N.C. contact
- C = Tripping travel of the N.O. contact
- D = Differential travel (between actuation and release)
- P = Point from which positive opening is assured during actuation

Bar Chart Examples (cam angle is 30 degrees)

Note: Values represent travel of cam in direction of arrow.
